## **BOOK SYNOPSIS**

One of the nations leading experts on the subject, David Cutler argues that health care has in fact improved exponentially over the last fifty years, and that the successes of our system suggest ways in which we might improve care, make the system easier to deal with, and extend coverage to all Americans. The key to improving the system, Cutler suggests, is to change the way we organize health care. Everyone must be insured for the medical system to perform well, and payments should be based on the quality of services provided not just on the amount of cutting and poking performed.
